MOAB nasce a Roma nei primi anni ottanta. A metà degli anni novanta, MOAB pone il Design e la cultura del progetto al centro del proprio disegno di impresa. Qualità della Manifattura, Design e cultura del progetto rappresentano – a partire dai primi anni 2000 – i pilastri sui quali l'azienda poggia il suo progetto di sviluppo imprenditoriale.

Attraverso la continua ricerca di un'estetica contemporanea, Moab presenta una proposta preziosa, trasversale ed elegante. Un design eccellente e sempre identificabile che mediante una qualità imprescindibile si rivolge al mondo del progetto internazionale.

MOAB was founded in Rome in the early 1980s. In the mid-1990s, MOAB places Design and project culture at the center of its business design. Quality of Manufacturing, Design and project culture represent - since the early 2000s - the pillars on which the company rests its business development project.

Through the continuous research for a contemporary aesthetic, Moab introduces a valuable, transversal and elegant proposal. Excellent and recognizable design that through unavoidable quality speaks to the international design world.

Eccellenza
Excellence

Da quasi trent'anni MOAB introduce nel mondo del bagno materiali innovativi, come il cemento, le malte cementizie, i metalli, i legni di recupero, i vetri retinati e la vetroresina con le fibre a vista, mantenendo fermi stile ed identità. La costante ricerca estetica e materica, che si affianca ad una cultura industriale e ad una sapiente manifattura artigianale, ha consentito alla MOAB di proporre, un "Sistema Integrato di Arredi" composto da Collezioni e Singoli Prodotti, che consentono di creare ambienti bagno diversi, unici e personalizzati. Organizzazione industriale e manifattura artigianale permette all'azienda di realizzare prodotti di qualità in grado di soddisfare le più complesse esigenze progettuali. Questa duplice dimensione, permette così di poter operare efficacemente, sia sul Canale Retails che su quello relativo al "Mondo del Progetto" (Architetti, Interior Designer, Sviluppatori e General Contractor), attraverso la fornitura di prodotti (a Catalogo e Bespoke) e servizi (supporto nella fase di progettazione esecutiva di prodotti ad hoc per iniziative residenziali, alberghiere e direzionali).

For nearly thirty years, MOAB has been introducing innovative materials, such as concrete, cement mortars, metals, re-used woods, wired glass and fiberglass with visible fibers to the world of bathrooms, while keeping style and identity firm. Constant aesthetic and material research, combined with an industrial culture and skilled craftsmanship, have enabled MOAB to offer, an "Integrated Furniture System" composed of Collections and Individual Products, which allow the creation of different, unique and personalized bathroom environments. Industrial organization and craftsmanship allow the company to create quality products that can meet the most complex design requirements. This dual dimension, thus allows to be able to operate effectively, both on the Retails Channel and on the one related to the "World of the Project" (Architects, Interior Designers, Developers and General Contractors), through the supply of products (Catalogue and Bespoke products) and services (support in the executive design phase of ad hoc products for residential, hotel and executive initiatives).

Door

Solido, caldo, accogliente: sono alcune delle qualità che ci inducono a scegliere il legno per l'arredamento delle nostre abitazioni, da tempo immemore. La collezione "Door" ne fa il protagonista e interpreta il massello di legno sulle sole ante con un lavoro di ebanisteria che recupera tecniche antiche, attualizzandole e contaminandole con il rigore del minimalismo contemporaneo.

Solid, warm, welcoming: these are some of the qualities leading us to choose wood for the furnishing of our homes, since time immemorial. The "Door" collection makes it the protagonist and interprets the solid wood just on doors with a work of cabinet-making that recovers ancient techniques, updating and contaminating them with the rigor of contemporary minimalism.

Mobile Door “Teak Stripes” con due cassetti e fianchi in teak, piano in vetro acidato nero con due vasche integrate. Due colonne B2C25L laccato nero opaco ed ante “Teak Stripes”. Specchio filo lucido e barre S90 nere.

Block

Block è una linea composta da Mobili Contenitori h48 e h24, la cui principale caratteristica è la forte personalizzazione sia dimensionale che materica. Il Mobile Contenitore è costituito da basi componibili e da piani di copertura realizzati in materiali diversi con possibilità di inserire Lavabi sotto piano, integrati.

The aesthetic meaning of this piece of furniture is enclosed in the name Less, a synthesis of form and function. The reduced depth of the furniture allows it to be placed in small spaces, without giving up a large container and a large sink, characterized by the subtlety of the metal of which it is made.

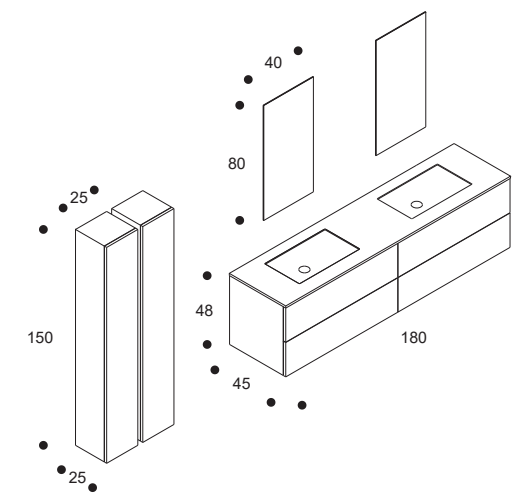

Mobile Block h48 in Rovere nero con piano di copertura in marmo Verde Alpi. Lavabi B2L6.N in ceramica nera opaca. Barre S90 colore nero. Specchi filo lucido con LED integrato.

Less

È racchiuso nel nome Less il senso estetico di questo arredo, sintesi di forma e funzione. La ridotta profondità dell'arredo ne permette la collocazione in spazi contenuti, non rinunciando ad un contenitore capiente e un grande lavabo, caratterizzato dall'esilità del metallo con cui è realizzato.

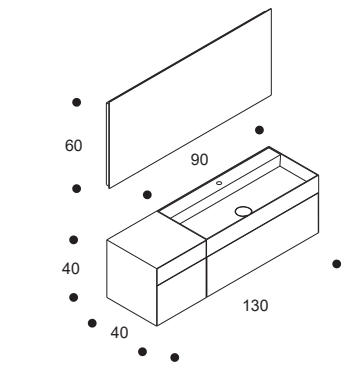

The aesthetic meaning of this piece of furniture is enclosed in the name Less, a synthesis of form and function. The reduced depth of the furniture allows it to be placed in small spaces, without giving up a large container and a large sink, characterized by the subtlety of the metal of which it is made.

LVM / LVR / LVC

Archetipo della memoria, rivisitato in chiave contemporanea, il lavabo free-standing LV è un oggetto senza tempo proposto in marmo, calcestruzzo e vetroresina. Il suo design ne ha evoluto l'estetica classica, pur conservando la memoria dei lavabi a colonna più tradizionali. Il lavabo è utilizzabile anche nella versione da appoggio.

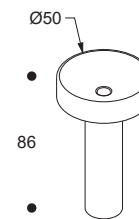

Archetype of memory, revisited in a contemporary way, the free-standing washbasin LV is a timeless object offered in marble, concrete and fiberglass. Its design has evolved the classic aesthetics, while keeping the memory of the most traditional pedestal washbasins. The washbasin can also be used in the countertop version.

Info

I colori del cristallo acidato appariranno con delle marcate differenze rispetto agli stessi colori delle laccature. Sebbene il colore sia lo stesso, la percezione dello stesso è modificata dal materiale che li ricopre.

Attenzione: I colori più scuri necessitano di una maggiore attenzione nell'uso e nella pulizia

Colours of the acid etched glass will appear with marked differences compared to the same colours of the lacquers. Although the colour is the same, its perception is modified by the material that covers it.

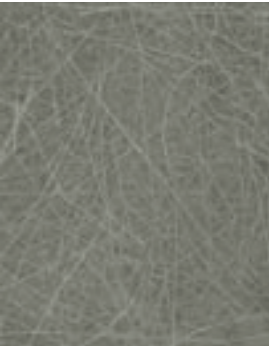

Warning: The darker colours need more attention in the use and maintenance.
